

LIST OF TABLES

Table	Page
1.1 Summary of studies on HIV prevalence	5
1.2 Summary of studies on HIV mortality	9
4.1 Demographic features of patients admitted into the medical wards of Leratong Hospital in 2001 and 2004	19
4.2 Trend in admission by sex and year	20
4.3 Top ten discharge diagnoses in both years	21
4.4 Most common discharge diagnoses by year	22
4.5 Discharge diagnoses for both years by sex	23
4.6 Top ten discharge diagnoses by sex and year	24
4.7 Average annual bed occupancy rates for the medical wards of Leratong Hospital	25
4.8 Top ten discharge diagnoses by their average length of stay (ALOS)	26
4.9 HIV testing in 2001 and 2004 by sex	27
4.10 Four HIV-associated infections by year	29
4.11 HIV test and HIV positivity rates in four HIV-associated infections by year	30
4.12 Mortality rate (%) among patients admitted into the medical wards of Leratong Hospital in 2001 and 2004	31

4.13 Top ten causes of mortality by year of admission	32
4.14 Factors associated with outcome (discharge/death)	34
4.15 Factors associated with length of stay	35

LIST OF FIGURES

Figure	Page
4.1 Distribution of patients admitted into the medical wards	20
4.2 Distribution of the four HIV associated infections by year	28
