Realitea - Iced Tea Brewed from leaf
by Ori & Daniel

Nothing beats a cold glass of iced tea on a hot day! Using seasonal, organic ingredients Realitea will be brewing all natural craft iced teas from fresh tea leaves, fruits and botanicals.

Welcome to our Crowd-funding project

Hi welcome to our crowd-funding project - Realitea. I'm an iced tea lover just like you, and Ori just didn't get it, until he tasted the tea I started brewing in my kitchen.

Ori - "it was like nothing I had ever tasted before; all the other iced teas taste artificial, sickly sweet and frankly not much like tea. That's when I said, we got to get this out there, people have got to know there is a better way." So we started Realitea.

Be a part of the tea revolution and help us change the way people enjoy iced tea!

Here's how it works

First we take fresh tea leaves, that’s right, fresh tea leaves right off the bush. That means that they are bursting with flavour and goodness. Dried teas lose up to 50% of their flavour and health benefits by being dried. Extracts in your store bought iced tea don’t even compare to the dried stuff! Next we brew them in a batch system, add real organic fruit pieces, organic cane sugar and spices. We gently extract all the flavours and when that goodness is ready we hot bottle it in glass without any preservatives or additives.

**RealiTea - good for you and good for the environment**

We only use locally grown organic tea and fruit, we calculated our carbon footprint when choosing suppliers to ensure that RealiTea is good for the environment not just consumers.

**Now here is the best part**

Half of the profits will go to sustaining the labourers and resuscitating the Tea estate that the tea is grown on. Some years ago the estate was left fallow because investors couldn’t see a great return on organic tea production. They left the whole community that depended on the tea and looked for better investments. RealiTea is the only chance this community has of making an honest living, doing what they know best, and growing great quality tea. Each bottle you buy will help feed and educate one of the 3000 people who depend on the tea estate for their livelihood.

Here's what people are saying about RealiTea

“Wow, that tastes great, and I love that it’s healthy too”

“It’s amazing how refreshing it is, and you can really taste the tea!”

“It’s refreshing and not overly sweet, just the right balance”

“Where can I buy more of it? I feel like I have never tasted iced tea before this!”

FAQ’s

So with all those great ingredients and brewing - does it cost a fortune?

No! It’s a little more than your commercial tea, but not by much, it’s really affordable to drink better!

Who needs it? How can you guys compete against the established brands?

We have done test markets, focus groups, and polled people off the street and in stores. There is resounding demand for a great tasting iced tea with real ingredients. We are confident that with your help we can get RealiTea to become a Reality!

Be a part of it!

We have a great product, people love it and the market is ready for it. We intend raising awareness and $50 000 in the next 35 days through this project. That money will go towards bottle molds, batch brewers and a web interface that will allow you to customise your iced tea at home. You choose the ingredients; we brew them and deliver them direct to you.
