List of Tables

Table 4.1: Demographic profile of study population at baseline (n = 19) 

Table 4.2: Baseline values for dialysis efficacy (Kt/V) and quality of life (EQ-5D)

Table 4.3: Pre-intervention values for dialysis efficacy (Kt/V) and quality of life (EQ-5D)

Table 4.4: Post-intervention values for dialysis efficacy (Kt/V) and quality of life (EQ-5D)

Table 4.5: Summary of dialysis efficacy (Kt/V) values

Table 4.6: Summary of weighted EQ-5D index values

Table 4.7: Pre and post exercise mean heart rate values

Table 4.8: Pre and post-intervention heart rates and exercise intensity values

Table 4.9: Comparison of exercise frequency and dialysis efficacy (Kt/V)

Table 4.10: Means procedure outlining intention to treat analysis for changes in Kt/V

Table 4.11: Means procedure outlining data analysis of only the 12 subjects changes in Kt/V
